**Specifications request: electric bicycles should have pedal riding ability, with electric drive and electrical support function. When electric drive is driving, the maximum design speed does not exceed 25km/h, and when the electric driving is driving, the speed exceeds 25km/h, and the motor cannot provide the power output. At the same time, the installation of a complete electric bicycle is less than or equal to 55kg, the nominal voltage of the battery is less than or equal to 48V, the motor rated continuous output power is less than or equal to 400W, when the maximum speed of electric Bicycle. Noise can not be higher than 62 db value.**

.

## Current problems

1. 网上申请平台为全中文 (Online application is not in English)
2. 网上申请反馈结果经常为无故失败 (Feedback from online applications often fails for no reason)
3. 车主需要自己骑车前往办理地点(The owner of the bicycle needs to ride by self to office.)
4. 办理地点较少且办理人数较多(Large number of people to apply it in very few offices)
